None the less, we can pull materials together, but not sure it will provide benefit. Might be beneficial to provide the Section 10 overview as well.

I think the lead for this would either be OST (who conducted the consultation and promulgated the rule) or OWM (who is implementing the rule), but your staffs can reach out to Alexis for support, as she is very familiar with the record.

Confidential; Deliberative

I'm currently evaluating a 404(g) state assumption proposal from Florida and Arizona and how to address ESA issues in state-assumed permitting. The proposal mentions the ESA process for the cooling water intake rule as a potential model. Could someone pull together the ESA-based components of that rulemaking for me, such as targeted discussion in the preamble, RTC, Bi-Op, etc. I'm not sure if this is an OGC or OWM assignment, so please work together to figure out the most efficient way to get a packet together.

Thanks!

Dave
